AKSHAYAAI RESEARCH · AIx SECTOR

115 AI stocks by category at the Nov 20 close

From chips to software: how far each stock sits below its 52-week peak, the day's move, 52-week range and P/E — Friday, Nov 20, 2026

-46%
Median below the 52-week peak, all 115 stocks; 23 at a new 52-week low

-77%
Hardest hit group: Nuclear & next-gen power (median below peak)

-29%
Most resilient group: Big Tech & AI model makers

-14.1%
Worst group on Nov 20: AI cloud & data-center operators

-1.9%
Best group on Nov 20: Application software & internet

Below the 52-week closing high · Day: change on Nov 20 · From 52w low / high: % above the 52-week low and below the 52-week high · † Listed in 2026: peak since listing · Within a group: furthest below peak first

AI chips: compute & connectivity (15)

median -48% below peak · day -11.7%

Universe: AkshayaAI's AI stock list (AIx, 117 names; 114 with price history) plus 2026 listings (ANT). Groups are AkshayaAI's own, by what each company mainly sells into the AI build-out. Peak = 52-week closing high (adjusted for splits; since listing for 2026 listings). From 52w low / high use the 52-week trading range; "new low" = at or below the prior 52-week low. P/E and Fwd P/E at the Nov 20 close; n/m = not meaningful. Source: AkshayaAI price database. Not investment advice.
